31th March, 2011

Dear RCA National Representatives,

RCARO is pleased to invite RCA Member States of the RCA-UNDP project on "Promoting and Accelerating Nuclear SPECT/PET Imaging Technologies in the Region" to participate in the Kick-off Meeting to be held from 17th to 19th May 2011 in Phuket, Thailand. Please find the attached Provisional Agenda, Prospectus and List of NPCs herewith for your reference.

As you can see in the Prospectus, the purpose of the Kick-off Meeting is to review and agree on the details of Work Plan of the project and National Work Plans of each participating Member States. The National Work Plans shall be presented by National Project Coordinators (NPC) to share national status of nuclear medicine and work plan of National Project Team which is formed by NPC for implementation of the project at the national level.

This is to request the participation of the designated NPCs from each of Member states to the Kick-off Meeting of the project, for which RCARO will provide necessary fund, including round-trip airfare and DSA on UNDP basis. Some other participants who could be invited for special roles will be arranged separately based on applicable stipulation.

It would be much appreciated if the designated NPCs could complete and return the attached Participant Form to us by 10th April 2011 at the latest. Please feel free to contact the Secretariat for any further information on the Meeting or participation.

Best Regards,

Mun-Ki Lee
Director,
RCA Regional Office
