Subject: Call for Nomination for 2027 RCA Expert Support Programme

Dear National RCA Representatives,

In line with the mandate to increase the awareness of the RCA, RCARO has been implementing the RCA Expert Support Programme to support RCA experts in promoting the RCA and its activities at regional and international conferences.

It is therefore my pleasure to announce that the nomination for the 2027 cycle of the Programme is now open. The Programme is to support experts who plan to participate in regional/international conferences related to nuclear science and technology between January and December 2027, and promote the RCA and its activities through presentations and exhibitions, or other promotional activities.

We also encourage the National RCA Representatives to apply for this Programme and they will be given priority consideration.

Successful applicants with sufficient experience and knowledge in the RCA and nuclear science and technology will be supported with airfare and DSA upon their request. Please refer to the attached Guideline of the Programme for detailed information including selection criteria and procedures.

It would be appreciated if you could nominate appropriate expert(s) in your country for such activities and send a duly completed nomination form to the RCARO **by 14 August 2026**.

Thank you for your continued cooperation and support to the RCARO.

Attached:

1. Guideline of the RCA Expert Support Programme
2. Nomination form
3. Participation Report form

Sincerely yours,

Dae Ki KIM
Director
